

# NÁVOD / INSTRUCTION

## Roll Up Luxury

### Artwork preparation for theme production

#### Rastr and vector data

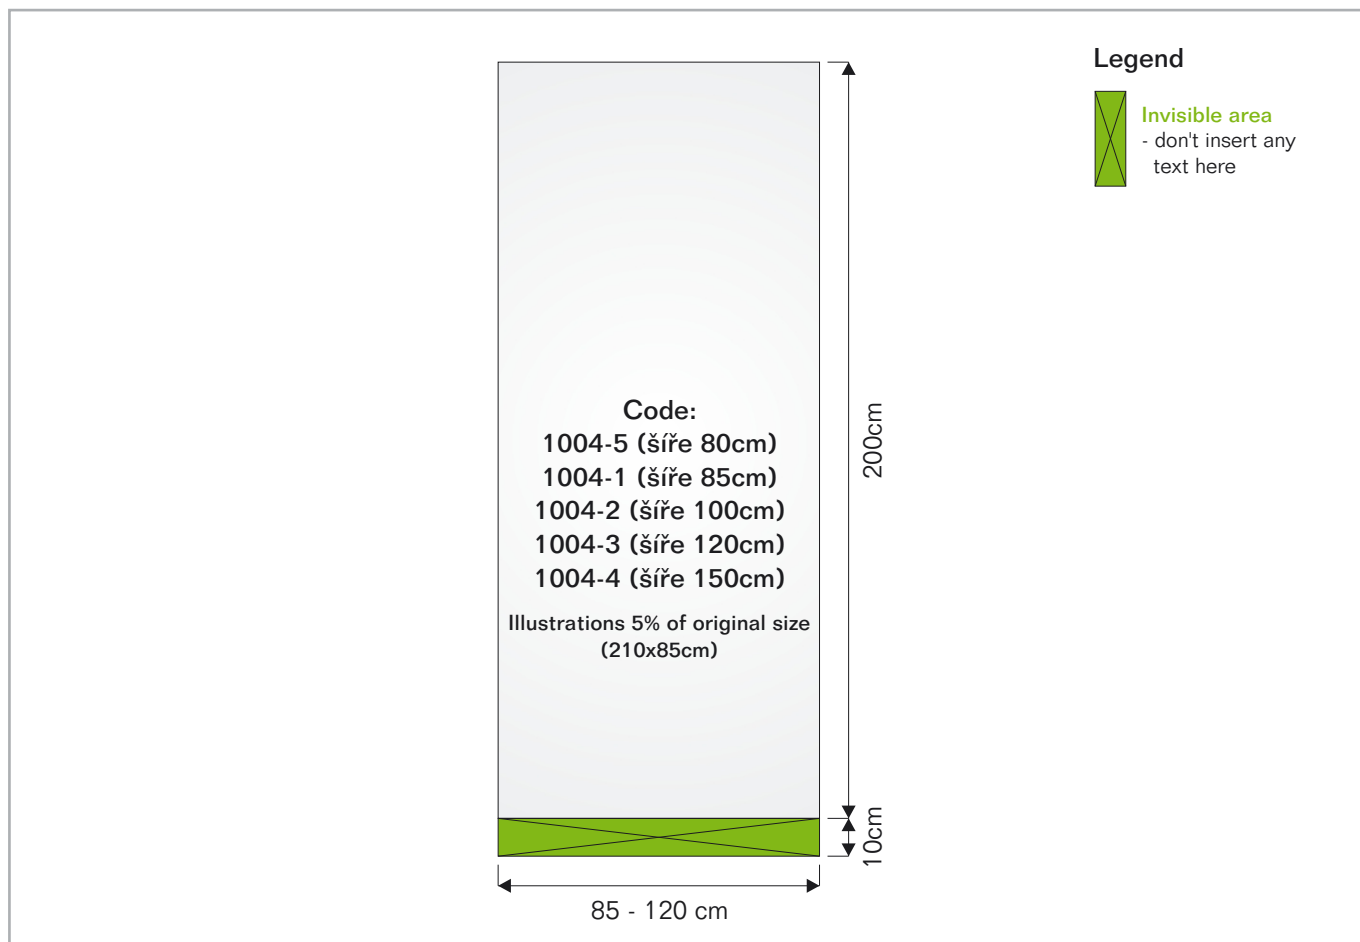

- use TIFF format of PDF for print – without color management or Euroscale Coated v2
- always in CMYK output
- picture sampling for 150dpi (min. 100dpi)
- size 1:1 according to the mask for artwork preparation + chop 1cm + chop marks
- convert fonts to curves or attach them

### Theme production

#### Attention

- Materials recommended for printing: Satin or banner 440-510g/m<sup>2</sup>.
- We recommend to glue the banner to the base unit with super glue so the theme doesn't get accidentally pulled-up from the base unit.

### Mask for artwork preparation

If you don't follow instructions in this manual, we will not acknowledge any potential complaints.
